Project: *(describe the project in 5 lines (350 words) and its specific needs).*

Example: Mobility project..

Our municipality aims to reduce carbon emissions and is looking for solutions to equip strategic points of the city with electric charging points, software to control traffic... The more detailed and explicit the needs, the easier it will be for companies to present solutions.

If you are interested in participating as a guest at one of the round tables on the proposed themes, please let us know.

☐ I am interested in participating as a speaker in the monograph_____
